

Transition to R12 quickly and easily, and with peace of mind

A major application upgrade to R12 can be complex, difficult and risky. But with the right technology and methodology, it doesn't have to be. Our approach saves you time, money and headaches by leveraging industry best practices and resources that streamline and future-proofs the entire upgrade process.

Fast. Efficient. Cost Effective. With all the required risk mitigation your organization demands.

Fast and efficient

We can quickly and efficiently upgrade the earlier versions of your Oracle applications to Oracle R12 E-Business Suite. Employing proven methodologies and expertise, we standardize the upgrade process using an efficient, repeatable production model.

100% Oracle compliant

Our process ensures that your application customizations, configurations, extensions, modifications, localizations, and integrations (CEMLI) will be fully compliant with current Oracle standards and specifications for R12 compatibility requirements.

Dependable, proven results

Leveraging proprietary platform and tool-sets, our Oracle Migration service experts will configure your functional set-ups so that your existing business flows run seamlessly on R12.

Fixed pricing

Our upgrade process enables us to implement and manage your R12 upgrade from start to finish, all for a fixed price — eliminating uncertainty,

Key benefits

- Innovative, fast, cost efficient upgrade to Oracle R12 E-Business Suite
- Lower, predictable fixed price upgrade and migration costs
- Ensured compliance according to Oracle best practice requirements
- Clear, accelerated growth path to cloud infrastructure
- Proven methodologies mitigate business risk

Sungard AS Customization Management

We can further analyze your current application customizations (CEMLIs) to make them compliant with Oracle best practice requirements and provide you with a clear, comprehensive customization reduction plan. Our experts are ready to work with your business analysts to minimize your customizations to reduce complexity and enhance performance.

How it works

1

Step 1: Automated assessment.

First, we thoroughly analyze your current Oracle installation. An Oracle upgrade specialist will conduct a comprehensive assessment of your Oracle environment to determine its level of complexity. Based on those results, we'll generate a CEMLI impact assessment report, scope of work and a fixed-cost proposal for the R12 upgrade — all within 72 hours.

2

Step 2: Technical and functional upgrade to the Oracle R12 E-Business Suite

After you approve our proposal, we'll begin upgrading your system to the latest version of Oracle R12 E-Business Suite, complete with all the necessary configuration and functional setups. As part of our innovative upgrade process, our expert team employs proven, repeatable processes to fully test each upgrade round, ensuring a smooth final production cutover. Our process platform streamlines upgrade execution and facilitates simple, open communication among all parties for maximum accuracy and efficiency.

3

Step 3: Future-proofing your Oracle applications

Working closely with your IT team, we develop a clear roadmap that future-proofs your Oracle applications that can save you time, money and disruptions by:

- Utilizing cloud-based management services
- Rationalizing and reducing customizations
- Implementing SOA as the integration architecture

With assistance from Sungard AS, your enterprise can upgrade to the latest version of Oracle R12 E-Business Suite in as few as 120 days.

Sungard AS Managed Oracle Migration Services

With assistance from Sungard AS, your enterprise can upgrade to the latest version of Oracle R12 E-Business Suite in as few as 120 days. Besides saving time and money, a partnership with Sungard AS enables your enterprise to focus its resources on core business issues and meet demands of your business community. You need your enterprise applications to empower your operations and drive business growth. But tight budgets, limited resources, and complex technology can make it challenging to get the most from your application investments.
