Sungard Availability Services’ Flexible Workplace Recovery estate provides you with the largest network of secure recovery locations that are convenient and seamlessly connected to ensure your recovery is easier, faster and sustainable.

UK Wide Workplace Recovery Specification

BS 25999 Part 2 certified – Resilient business operations across every Workplace Recovery centre.

Single Resilient National Security System – Ideal for nationwide recovery needs, one system for easy, rapid admin:

- Government agency intelligence feeds – Every location aware of latest national and local threats
- Manned security – Counter surveillance, first aid and conflict management trained staff
- Smart automated CCTV – Perimeter and internal: automated detection and alerts with keyboard and monitor zoom. Compliant with Home Office and police evidentiary recording standard
- Physical access controls – Preventing opportunistic intrusion
- Centralised control and administration – Rapid and easy customer configuration and tailoring.

Standardised, premier, enterprise level recovery infrastructure – Rapid, reliable, easier recovery and rollback:

- PC build – Reduces recovery complexity.
- Telephony – Inbound and outbound calls, RTO from 10 mins:
  - Centralised switch – Recovery from any location
  - Local switch – Permits greater control and tailoring of service
  - Local switch control – Enables greater security and tailoring for customers
  - TDM and IPT telephony systems – Recover both types for your usual functionality
  - Free seating/Automated Call Distribution – Sit anywhere, secure call distribution even for multiple shift workers.
