

New Ways to Get the Biggest Return from Your Cloud IT

from 2011 to 2017

Enterprise spending
on cloud computing will

triple 

from **\$78.2** billion to
\$235 billion

IDC predicts that cloud expenditures will
surge by **25%**
to over

100
billion

in 2014

Here are three use cases

that demonstrate the CapEx and OpEx benefits of managed cloud services.

Disaster Recovery

in the cloud

Physical servers in
multiple locations

Application Migration

in the public cloud

Perform development & testing
use cases in the early stages of
the application lifecycle.

Hybrid IT in the cloud

Consolidate some or all
components of their IT
as part of a mixed or
hybrid ecosystem.
