

SACRAMENTO FACILITY | RANCO CORDOVA, CA

Sungard Availability Services helps businesses transform their IT environments, ensuring they are resilient and recoverable. We leverage our experience across a broad range of IT landscapes to align the right workloads with the right infrastructures — whether hybrid cloud, legacy or something in-between. As a result, our customers can streamline and manage complexity, minimize risk and adapt to change.

SERVICES PROVIDED:

Colocation: Provides fully redundant, high-performance data center facilities across the world — supported by highly experienced and responsive IT operations personnel. Colocation services range from high-quality conditioned space, power, and network access to managed colocation including monitoring, security, and data backup services. We tailor these solutions to your needs and scale them as your business grows.

Managed IT Services: A comprehensive portfolio of fully managed, adaptable and cost effective application hosting services leverage our enterprise-class infrastructure, IT availability capabilities, and application expertise. Our managed IT services include application management, managed servers, managed security, storage and data protection, and network services deployed in both dedicated and cloud-based models.
